---

**PERSONAL:** Born 1959 – Waterville, New York. The work I am currently engaged in is a continued refinement of a visual dialogue with life. Changing relationships of light, air, and color, specific to season and time of day are the foundational structures underpinning my work. A yearning to see and interpret more clearly and truthfully defining qualities intrinsic to each subject has become my obsession. The interactive process of painting itself, with its history, both personal and universal is the backdrop and the lens that places each new effort in context.

**EDUCATION:** BFA Painting and Drawing. Tyler School of Art, Temple University, 1982.  
AAS Rochester Institute of Technology, 1979.
